Laboratory Information Bliss™

Freezer Pro®
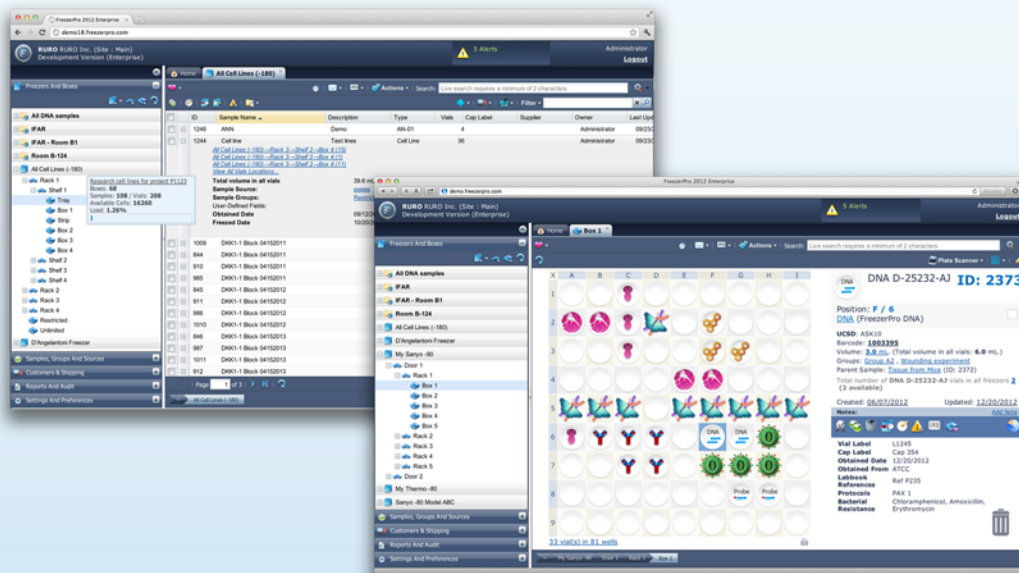

Sample Management System

FreezerPro was designed purely for sample management. This focus allows it to eliminate wasteful inefficiencies and help streamline laboratory production without the resource requirements associated with adopting a LIMS.

FreezerPro enhances user's ability to work, collaborate and learn through traceability, automation, configurable reporting, communication tools and hardware support. For thousands of users worldwide, FreezerPro is Laboratory Information Bliss™.

+ ELN

By combining FreezerPro with an Electronic Laboratory Notebook, such as RURO's Sciency ELN, users gain a complete information management solution to organize, capture, share and store experimental data notes and associated sample records.

+ LiMS 24/7

When users work with FreezerPro complementing a LIMS, such as RURO's LIMS 24/7, they are given precise tools and functionality for sample management.

+ RuRo SMART RFID Technology + (barcode) 0 123456 789012

FreezerPro is compatible with many Barcoding and RFID hardware scanners, readers and printers.
